To All Residents of Kearns:

Welcome to the first issue of the Kearns Community Newsletter! Created especially for the residents of Kearns its purpose is to bring attention to the community some of the information and events that are of importance to our hometown, as well as provide a convenient pull-out design that can be easily referenced to in the future.

One issue we hear quite a lot as Council Members is that residents don't even know that a Community Council exists. Ours was one of the first Community Councils formed to represent the residents of Kearns back in 1968. Since then we have had many civic-minded individuals serve the community without receiving any compensation other than a smile & pat on the back. As current members of the Kearns Community Council we are pleased to serve you, and this is a true example of a "grass roots" organization. Kearns represents approximately 20% of the population in the unincorporated county so we take our responsibility highly.

We have had the opportunity to work on various projects for Kearns and have worked diligently to be a voice of our community. When UTA proposed local route reductions this year we were able to acquire some concessions and route changes. However, we still have more work to do to encourage restoration of routes and also establish new routes in areas not currently served by bus service. We helped bring to UTA's attention the needs of many residents that depend on mass transit for work, school and family needs to travel within a reasonable amount of time, and continue to discuss improvements in our community with UTA management.

We work closely with State Legislative Representatives and the Salt Lake County Council to stay current on legislative issues that will impact both Kearns and Salt Lake County. Their efforts are

*Kearns Community Council*

wide includes upcoming surveys conducted by Salt Lake County to all its residents regarding the manner of government on the local level. Currently, Kearns is protected from any annexations through state legislation that established townships. Since becoming a township Kearns' borders have been protected. Another benefit includes more control in local government which enables Kearns to have local control over land use to best represent our distinctive needs and have oversight of Planning & Zoning. Future issues of this newsletter will be used to better educate the community on the upcoming survey, as well as obtain feedback from residents on how you would like to see the Kearns community go forward in years to come.

We look forward to meet with the 33,659 residents that we represent at any time and encourage you to bring your families and friends to participate in upcoming community events. As a Council we believe that Kearns is a 'Great Place to Be' and hope you find this newsletter to be both beneficial and informative. Please contact any member of the Council with your thoughts and suggestions as to how we might make it better. Thank you for your support.

*Kevin C Lundy  
Chairman, Kearns Community Council*

## You Can't Get There From Here

*By Chuck McDowell*

Many communities including Kearns might adopt the old joke that states "You can't get there from here" due to traffic congestion and growth.

One area of concern that the Kearns Community Council has focused on for the citizens of Kearns has been public transit, growth and road construction and improvements. On March 15th the Council organized a transportation summit meeting at the Olympic Skating Oval and invited a number of key officials to attend. A list of those that attended include Senator Ed Mayne, Senator Brent Goodfellow, Representative Jim Dunnigan, Mayor Peter Corroon, Jeff Daugherty from Salt Lake County Planning, Alan Anderson of Chamber West, Tom Haraldsen from the Valley Journals, administrative assistants for Salt Lake County Council members Mike Jensen and Jenny Wilson, Randy Parks – Regional Director for UDOT, David Huber – Regional Director for UTA, Asst. West Valley City Manager – Paul Isaac and several citizen advocates and several members of the Kearns Community Council.

The meeting was chaired by Kevin Lundy, chair of the Kearns Community Council and moderated by Kearns Community Council member, Chuck McDowell. The primary focus of the conference was to address the concerns of the Kearns Community Council and several citizens groups in the area regarding the widening

*Senator Ed Mayne speaking to the group at the March 15 Transportation meeting.*

and improvements anticipated for 5600 West, sidewalks and crosswalks on 5400 South in the area of 5600 West and also the future construction of the Mountain View Corridor. As part of that analysis the group reviewed expected timelines presented by UDOT for this work and asked if it might be possible to add sound walls to the project to help alleviate the noise, pollution and danger that exists presently due to the drastic increase in heavy haul traffic along 5600 West.

Also discussed were issues of public transit and the newly projected routes that have now been adopted by UTA. Future vision of public transportation was also discussed as it pertains to the Kearns area in the form of Rapid Mass Transit and Trax.

Randy Parks of UDOT addressed the specific questions posed by the group on 5600 West and Mt. View Corridor. Dave

## Kearns Night Out Against Crime

On Tuesday, August 1, 2006, from 6:00 PM until 9:00 PM the Kearns Crime Prevention Association will be hosting the 23rd annual National Night Out Against Crime celebration. Once again, the Utah Olympic Oval has been generous in letting us use their facilities for the 2nd Annual Kearns Night Out Against Crime. Citizens, law enforcement agencies, community groups and businesses all across the country will be celebrating crime prevention awareness with us while sending a message that crime will not be tolerated in our communities.

**National Night Out is designed to:**

- Heighten crime and drug prevention awareness.
- Generate support for, and participation in, local anti-crime efforts.
- Strengthen neighborhood spirit and police community partnerships.
- Send a CLEAR message to criminals that our neighborhoods are organized and they are fighting back.

This year, sheriff deputies and fire personnel will be available with their emergency equipment and vehicles to show to the public and to provide crime prevention and fire safety information. We will also have several other County departments, neighborhood groups, organizations, businesses and branches of the military represented. We have a great line-up of speakers, including Senator Ed Mayne and Sheriff Aaron Kennard. As part of the festivities, we are looking forward to barbecuing hotdogs, and

# SALT LAKE COUNTY AND KEARNS

By Jim Bradley  
At Large, SL County Council

Congratulations on the first issue of your community newsletter and thank you for inviting me to share some of my thoughts regarding Salt Lake County and Kearns.

Since my time as Chair of the County Commission (1991-94) and throughout my tenure on the Salt Lake County Council, one of my top priorities has been to maintain the viability of the Municipal Services Fund. This is the fund that pays for municipal services in the unincorporated county; services such as sheriff's patrol, sanitation, and plan-

ning and zoning. Revenues to this fund are raised by property and sales taxes in the unincorporated county. To protect these revenues from being lost to cities through annexation, we have created townships. The Kearns Township is an excellent example of this.

The County Council has worked hard to maintain a high level of service to our unincorporated residents. One of the issues we have been dealing with recently regards the amount of money we charge cities to contract with us for services such as law enforcement and animal control. I serve on the board that has been exploring the feasibility of creating

a unified police district composed of the cities that contract with the County and the unincorporated areas of the County. My goals have been to ensure that quality local policing services are provided to the County's unincorporated residents at a reasonable cost and that the contracting cities are paying their fair share.

We may not go so far as to create an independent police district to insure that we achieve those goals. Rather, we may just strengthen the precinct policing model which the Sheriff's Office has implemented and which seems to be working well. This would be a less expensive measure that would achieve the same ends and I am favoring this outcome more and more each day.

One of the most enjoyable aspects of serving the public is finding ways to fund important community amenities such as parks and recreation services within each community. During my tenure as a Salt Lake County Commissioner, over 32% of all park and recreation dollars were dedicated to the West Community Planning area which includes Kearns, West Valley, Taylorsville and Magna. In Kearns we funded and built such projects as:

- Quirrh Park Baseball Complex and the joining parking lots, concession stands,

restrooms, lights, and landscaping.

- Kearns Recreation Center kitchen and game room remodel.
- Kearns Senior Citizen Center
- Cougar Park

This November citizens will have an opportunity to re-authorize funding for the County's Zoo, Arts and Parks (ZAP) program. As involved community citizens, you need to encourage your friends and neighbors to vote for this reauthorization. Items included on the funding list for Kearns are:

- Development of Oquirrh Hills Park
- A new community skatepark
- Remodel of the Kearns Recreation Center

Finally, the Council has been actively involved in working with Kennecott Lands to insure that the West Bench Development Plan adequately addresses the development issues and impacts on our existing Westside communities. Actively managing the significant growth that will come from their developments will result in an improved quality of life for the whole area.

I am pleased to play a role in these decisions that will shape our communities for generations and I am always available to meet with or talk to the citizens Kearns. I can be reached at 468-2939.

## COMMUNITY UPDATE

Many great and wonderful things are continuing to happen in the Kearns Area. As the County Council representative for Kearns, I am proud to give an update on some of the issues that you may have seen around our community.

Many of you have read in the paper about the re-authorization of the Zoo, Arts and Parks projects that have been awarded to the Kearns area. There is never enough financing for all of the worthwhile projects, however, through effort and initiative, the following projects have been approved and I am proud to announce them. The projects are; \$1 million for a skateboard park, \$500,000.00 for a remodel of the Kearns Recreation Center, and another \$1 million for the Oquirrh Hills Park (behind the Oval). These projects will cost approximately \$2.5 million and will be great attributes to the Kearns area.

We continue to strive to provide the quality of life that the citizens of Kearns deserve. Mountain Man Park is nearing completion with \$150,000 in upgrades. The park will now have a jogging path, restroom, upgraded playground equipment, more trees, and picnic tables. Enjoy!!!

There have been several safety features added to the Kearns area. We were able to work with the Fitness Center and the School District to have the Salt Lake County install a much needed traffic signal on Cougar Lane that leads into the Fitness Center and Kearns

High School. The County also installed street lighting at Ed Mayne Drive.

Kearns is prepared for any emergency that may come our way. The Unified Fire Authority has two fire stations within Kearns, looking out for the needs of the community. Nine firefighters a day are assigned between the two stations, two of which are paramedics, 24 hours a day, 365 days a year. The 32 firefighters that are assigned specifically to Kearns are the elite Hazardous Materials team for the entire valley. All of the firefighters that work in these stations are tremendously trained and skilled. Kearns is the home, of the first of its kind, State Mobile Lab. This mobile lab is unique in the nation and has state of the art detection, laboratories, and cleanup abilities. This lab can detect virtually any type of biological or chemical threat that may occur. The HazMat team is also equipped with a mass decontamination trailer. The citizens of Kearns are very fortunate to be so prepared in case of an emergency!

As your representative, I would appreciate any feedback that you would like to offer. It is important to me to get your perspective and for you to guide your destiny. I can always be reached at my office at 801.468.2932.

Sincerely,  
Michael H. Jensen, District 2  
Salt Lake County Council

**"Can't Get There" from front page**  
Huber of UTA addressed questions posed regarding revised bus routes being suggested for the Kearns area.

### WINS / LOSSES

We as a Council viewed this overall meeting as a significant WIN for several reasons. One reason was the stature of those in attendance. It was apparent that we as a community had the respect and focus of very high level people on both the County and State level willing to address our concerns and needs.

We feel that the resulting UTA coverage is primarily a WIN. We now have bus service along Cougar Lane for the first time and Kearns High School, the soccer and baseball area, the Kearns Rec Center and KOPFC all benefit. We were able to maintain sufficient day and evening service for the North and South Kearns districts and we maintained east/west service on 54th South during evening hours. Much of this was projected by UTA to be eliminated before our efforts.

We did loose bus service along 5600 West between 54th South and 47th South but UTA assured us at this summit that they

would review re-establishing service in November. We will continue to work with UTA to renew this necessary bus service to the Western Hills district of Kearns.

Regarding UDOT and the widening and improving of 5600 West; we feel that we have taken first steps in resolving issues there and now have the ear of UDOT planners in a more significant way. If UDOT delivers the projects as promised we should see the widening of the bottleneck at 47th South and 5600 West this year and also the sidewalks on 5400 South. The full widening of 5600 West through to 6200 South and beyond is anticipated in 2007 and we are now in discussions with UDOT to assure that it is done in a way that provides protections to our citizens in the form of retaining walls, sound walls and necessary infrastructure like proper lighting, crosswalks, semaphores, etc. This is not a certainty but the discussions are taking place and we will keep a clear focus on this.

We welcome public comment. Please contact your Kearns Community Council representative if you would like to give input.

## Message from Mayor Corroon

By Mayor Peter Corroon

I want to congratulate the Kearns Community Council for its very proactive agenda and keeping our citizens informed of issues of interest to their community. This newsletter should be a great step toward keeping citizens in the "loop".

There are significant issues that touch us all. Dale Carpenter, the Director of the Department of Economic Development for Salt Lake County has met with the Kearns Community Council three times. The result of those meetings and a formal request from the council will be Salt Lake County will help fund a professional study of potential sites for projects. Those economic development projects could follow one of three tracks:

- Urban Renewal
- EDA-Economic Development
- CDA-Community Development (as allowed under Utah's newly revised RDA law.

Salt Lake County, through its Economic Development Department is working cooperatively with the council.

Although not located in Kearns, the Kennecott land development along the Oquirrh Mountains will have a significant effect on the future of Kearns. Right now we are in the process of developing a West Bench Master Plan for the land owned by Kennecott. Over the years there have been a number of master plans developed for our unincorporated communities.

None have been the size or scope of the West Bench. There are 75,000 acres of land owned by Kennecott within Salt Lake County's jurisdiction. Recommendations from planning commissions are expected before October, meaning the Salt Lake County Council will get the plan sometime this fall.

The series of public hearings addressing this important plan continue through mid September. A draft of the West Bench General Plan and associated maps are available through the Planning and Development Services Division web page at [www.pwpds.slco.org/zoning/html/GeneralPlans/wbplan.htm](http://www.pwpds.slco.org/zoning/html/GeneralPlans/wbplan.htm).

All the public hearings are scheduled for the government center in July, August and September. If you haven't already, I invite you to attend and hear what people are saying about this very large, very important development.

### "Night Out" from front page

providing lots of summer time fun. There will be outstanding classic rock music by the local band "Captain Obvious", as well as karaoke sing-a-longs by Teddy Uhi and Paul Putnam. Just one can of food or personal hygiene item, which will be donated to the Kearns Food Bank, gets you in the door and enters you in our MEGA prize drawing! We are hopeful that this year's National Night Out event will be even more successful than last year and thereby raise our communities' overall awareness concerning crime prevention and personal safety.

Contact person for this event is Cathy Harding, Kearns Crime Prevention Association, 688-9376.

## NEW WEBSITE

[www.kearns-utah.org](http://www.kearns-utah.org)

From its humble beginning as Camp Kearns in 1942 during World War II, to 2002 when it became an Olympic venue community, till today, Kearns has existed for the benefit of its nation and the world. Thank you for visiting. On our website, we hope to provide news, information and links of interest to our community and their concerns.

The Kearns Community Council invites you to visit our website and use it to contact the Council member in your area. Please utilize the website as a resource and let them know what you think would improve the website to increase its usage.

# IMPROVEMENTS TO KEARNS PARKS

By TJ Dubach and Cathy Harding

If you have driven through the Western Hills District of Kearns you might have noticed that the Mountain Man Park located on Heath Avenue is currently receiving a face-lift. Salt Lake County Parks and Recreation accepted a proposal written by Kelly Record, the old Town Council, and Representative Eric Hutchings which sought to improve the Mountain Man Park by installing a new playground, restrooms, a walking track and adding some trees.

The renovation has taken place over the last several months, starting back in November when many members of the community planted 35 trees in the park. The walking track was the next main project to be undertaken; it is nearly completed as of today. The citizens should expect to see the improvements finished by the end of the summer.

Although it will be nice to have these upgrades to the park, the residents will be missing a piece of the original proposal. Five picnic table shelters were supposed to be added to the park but due to a budget shortfall that will not take place. This being said, the Kearns Community Council has entered another request to SLCO to have these shelters be installed. If the request is accepted, these improvements will take place in 2007.

Besides the upgrades to Mountain Man Park, there is other good news regarding Kearns parks. After consideration of ZAP proposals submitted to the ZAP Board by the Kearns Community Council, Kearns can now look forward to a new \$1 million skatepark. Salt Lake County will also remodel of the existing

Kearns Recreation Center in the amount of \$500,000, and provide \$1 million for development of Oquirrh Hills Park which will be behind the Utah Olympic Oval. These

Chuck McDowell & TJ Dubach (top), local citizen volunteers (right), Kevin Lundy and Kathy Larrabee (far right)

funds will be provided if approved by voters in November.

Referring to the \$1 million skatepark, the plan is to construct a facility in which skateboarders, inline skaters and bicycle enthusiasts may practice and develop their skills. This in-ground, concrete skatepark will take the form of an open-air, outdoor park consisting of a series of concrete ramps, benches and other terrain specific to these alternative sports. The park's design and choice of terrain will make it accessible to both beginners and more experienced riders. This facility will be free and open to the public. The proposed size of the skatepark is approximately 30,000 square feet. Research suggests that there are some communities that consist almost entirely of one type of skate-style user, either street or transition. However, most communities typically consist of both. Not all skaters in our community are going to want an exclusive street or an exclusive flow style park. Proposed is a hybrid park which includes flow and street elements which will have the different sections of park separated by decking.

Ed Mayne was instrumental in acquiring additional funding from the ZAP Board for Kearns projects as you can see from this quote from him: "on the final two days before the final ZAP tax projects came down I spoke to a few key county council members and complained we had not got enough for Kearns.... Randy (Horiuchi) and a few of us talked and we were able to get an extra 1m for the soccer/football/baseball park and 500K for renovations to the Rec. Center... I told the council members we were going to make Ed Mayne Street. a toll road and use the proceeds to benefit Kearns since they were not taking care of us.... They laughed and gave us the extra 1M."

After approval of the ZAP money, the projects went before the Debt Review Committee to review the financial aspects of all of the projects. The language for the Voter Information Pamphlet and the bond language were the next step in the process. In November the ZAP funding list will be on the ballot. It is important for all interested parties to encourage people to vote in support of ZAP on the ballot.

*Did you know that a member of the KCC speaks Spanish? Your opinions and concerns matter, we would like to hear them. Please contact TJ Dubach at 801-967-3290 or [trd0330@westmistercollege.edu](mailto:trd0330@westmistercollege.edu).*

## Community Involvement

By Paula Larsen  
KCC, Community Involvement Chair

Do you remember when Kearns Hometown Days meant an annual parade, a round the block parade where kids and families would decorate bikes, wagons, etc... and participate, where there was always a community dinner the night before the parade? If you do remember these, well there back. If you don't remember these then, surprise, there back. As your elected council member one goal that I share with my fellow council members is that we as your council become more involved with you, our community. We thought one good way to do this is to expand our Kearns Hometown Days. So decorate those bikes, wagon, performing groups, etc... and enter our parade and strut your stuff. Your very own Utah Olympic Oval, Kearns Lions Club, Miss Kearns Royalty, and other sponsors have joined us to bring to you your first annual Kearns Hometown Night August 11th. Food, fun, and live music will help you prepare for the following day festivities of the Kearns Hometown Days Parade and Kearns Oquirrh Park Fitness Center annual Fire, Water, and Ice, both on August 12th. As the community involvement chair of your council I want to extend to all of you a personal invitation to come and participate in all these events.

Kearns is a great community. Growing up here, in my opinion, was rewarding and fun. Many who grew up here returned to make Kearns their home. There is a mystic about Kearns that brings its residents and business's together in unity. Your council wants to make sure we all stay united and

one good way is to have communication between all. Let us, your council, know who you are and what you would like to see happen in your community. Tell us of your organizations events so we can support them and help get the word out to others. We want to be involved in this community from the very smallest issue to the very biggest. As George Bernard Shaw one said: "I am of the opinion that my life belongs to the communi-

ty, and as long as I live it is my privilege to do for it whatever I can". This statement will help us grow together; face challenges together, strengthen our bond, and keep our community strong. Responsibility of a community does not only lie with your leaders who have been appointed or elected. It lies with each of us individually. In every community there is work to be done. In every heart there is the power to do it.

## Kearns Library

Have you visited your Kearns Library lately? Stop by and see all of the great materials we have to offer, including a wide variety of books for the whole family, current DVD's and Videos, music CD's, audio books and more. Looking for Internet Access? We have that too. And it's all free with your library card!

Don't have a library card yet? On your next visit to the library, bring photo

identification and proof of your current address. The following items will be accepted as proof of residency: a lease agreement; a current utility bill, your car registration, or a pay check stub. Children between the ages of 5 and 17 can obtain a library card, but must be accompanied by a parent or guardian at sign up. We look forward to seeing you soon!

# 2006 Kearns Hometown Days Kickoff

**\$1 DINNER**

**FRIDAY, AUGUST 11TH**

**5:30PM-9:00PM**

Presented by:

**At the Utah Olympic Oval**
